ABOUT ME

Aspiring AI & Data Science Engineer pursuing B.Tech in Artificial Intelligence and Data Science, seeking internship and entry-level opportunities to apply skills in machine learning, data analysis, and software development. Passionate about building data-driven solutions and eager to gain hands-on industry experience through real-world projects.

EDUCATION

2023 - 2027

B.Tech Artifical Itelligence & Data Science
Crescent University

EXPERIENCE

Chennai Port Authority
31 June 2025 -
16 July 2025

IT INTERN

- Completed 15-day internship focused on port operations and digital systems.
- Worked on berth allocation, cargo analysis, and vessel handling.
- Gained exposure to port logistics and cargo management systems.
- Assisted in data processing, reporting, and workflow support.
- Collaborated with officials in a live operational environment.

SKILLS

HARD SKILLS

- Python
- SQL
- Machine Learning

SOFT SKILLS

- Problem Solving
- Team Collaboration
- Adaptability
- Communication
- Time Management

PROJECTS

SMART GATE PASS SYSTEM

- Developed a web-based Smart Gate Pass Management System with role-based authentication, database integration, and automated approval workflow to digitize and streamline student entry/exit tracking.

SMART BERTH ALLOCATION

- Developed a Cargo Ship Berth Allocation System that optimizes dock scheduling and berth assignment using real-time vessel data to improve port efficiency and reduce turnaround time.

SIMPLE RAG CHATBOT

- Built a RAG-based PDF chatbot leveraging LangChain and Google GenAI APIs with a Streamlit interface for document-based Q&A.

MUSIC RECOMMENDATION SYSTEM

- Developed a machine learning-based Music Recommendation System with data preprocessing, similarity algorithms, and personalized filtering techniques to analyze user preferences and generate accurate song recommendations
